

SHAHBAAZ AHMAD

Senior Frontend Engineer

React.js | Next.js | TypeScript | React Native

Email: shahbaaz.ahmad3794@gmail.com

Phone: 8986480098

LinkedIn: linkedin.com/in/shahbaaz-ahmad-610828140

Professional Summary

Senior Frontend Engineer with 5+ years of experience building scalable web and mobile applications using React.js, Next.js, TypeScript, and React Native. Experienced in reusable component architecture, micro-frontend architecture, responsive and accessible UI from Figma, performance optimisation, GitHub Actions CI/CD, and AI-assisted development. Improved Lighthouse score from 65 to 80 and reduced bundle size by 15% through frontend optimisation techniques.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, React Native, Vite, HTML5, CSS3, Tanstack Query (React Query)

State Management: Redux Toolkit, Zustand, Context API

UI: Storybook, Figma, Responsive Design, Accessibility

Performance: Code Splitting, Lazy Loading, Memoization, Core Web Vitals, Bundle Optimisation

Testing: Jest, React Testing Library

Backend: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL

Tools: GitHub, GitHub Actions, pnpm, Jira, Postman, Claude, Cursor

Others: AG Grid, React Flow, Material UI (MUI), AWS

Professional Experience

Brevo | Senior Frontend Engineer | Apr 2024 – May 2026

- Developed scalable React.js, Next.js and TypeScript features for the Marketing Automation platform serving 500,000+ businesses.
- Built reusable type-safe UI components and expanded Storybook component library.
- Translated Figma designs into responsive and accessible production-ready interfaces.
- Implemented Redux Toolkit and TanStack Query for efficient client and server state management.
- Improved Lighthouse score from 65 to 80 and reduced bundle size by 15% through code splitting, lazy loading and memoization.
- Collaborated with a cross-functional team of 10–15 engineers on architecture, planning and delivery.
- Performed approximately 2 code reviews per week to maintain engineering standards.
- Created and enhanced GitHub Actions CI/CD workflows.

- Maintained 80%+ unit test coverage using Jest and React Testing Library.
- Leveraged Claude and Cursor to accelerate development and documentation.

Happiest Minds Technologies | Frontend Developer | Nov 2022 – Apr 2024

- Built scalable React applications for enterprise customers.
- Developed reusable accessible UI components.
- Optimised rendering performance and collaborated with cross-functional teams.
- Conducted code reviews and mentored junior developers.

Excellence Technologies | Junior Frontend Developer | Oct 2020 – Oct 2022

- Built and maintained multiple React applications.
- Integrated REST APIs and optimised frontend performance.
- Worked directly with stakeholders to deliver production-ready features.

Projects

- Marketing Automation Platform – React, TypeScript, reusable workflow builder and shared UI components.
- Cybersecurity Management Platform – Enterprise dashboards and role-based workflows.
- Healthcare Application – Mobile-first appointment and patient workflows.
- Social Discovery App – React Native features focused on engagement and performance.

Education

B.Tech – ITM University, Gwalior
